

IX. C) Nuisance Ordinance

This ordinance change has been reviewed and discussed before. It brings all aspects of our nuisance code into compliance with state law, and clarifies the enforcement proceedings when an owner continues to violate the section.

The Chief and Mayor requested that Mr. Botkins evaluate our current ordinance, and recommend changes, especially in the area of property maintenance issues that impact the neighborhood. Towns like Bridgewater, Dayton, and other small towns in our area have moved in a similar direction.

We recommend approval of the Ordinance.
