Commission

Re: Letter of Support for People, Incorporated, Luray Meadows CDBG Application

Date: 6 February 2018

Please find this letter confirming the Northern Shenandoah Valley Regional Commission's (NSVRC) support of the Luray Meadows Housing Development Project. NSVRC is prepared for the Town of Luray to designate the organization as the grant administrator for the proposed Community Development Block Grant application. The Northern Shenandoah Valley Regional Commission will assume the responsibilities of the grant administrator for the project, including grant monitoring, compliance, reporting, budget maintenance, and financial draw preparation on behalf of the Town of Luray.

The Luray Meadows project is consistent with the goals of the Consolidated Plan for the Northern Shenandoah Valley in providing safe, decent, and accessible housing in our region. This project has the opportunity to make a significant impact on the Town of Luray, which is located within our most economically distressed community in the region. Additionally, the Northern Shenandoah Valley Regional Commission intends to rank this project as the region's #1 Community Development priority, an advantageous designation for this grant application.

Sincerely,

Brandon Davis
