

Town of Luray, Virginia
Council Agenda Statement

Item No: VI - C

Meeting Date: May 14, 2018

Agenda Item: COUNCIL CONSIDERATION
Item IV-C – SUP 18-3 – West Main Street Bridge Replacement

Summary: Council is requested to consider a request from the Town of Luray to construct a replacement bridge on West Main Street over Hawksbill Creek through the issuance of a Special Use Permit for construction within the established floodway as required by Town Code Appendix A, Section 408.11 (9) B.4. The bridge construction has completed environmental review in conformance with the National Environmental Policy Act and received a Categorical Exclusion to permit construction of the replacement bridge.

The Planning Commission conducted a Public Hearing on the SUP request at their April 11th meeting. The Planning Commission recommended approval of the requested SUP for bridge construction within the established floodway.

Council Review: April 24th Council Work Session

Fiscal Impact: Project funding is through various VDOT funding programs and is included in the Town's annual budget.

Suggested Motion: I move that Town Council approve the request of Special Use Permit application SUP 18-3 from the Town of Luray for reconstruction of the West Main Street bridge over Hawksbill Creek with construction in the establish FEMA Floodway as presented.
