The Hawksbill Greenway – Luray, Virginia

Wonderful murals for all to see!

... and native wildlife too!

Fun, friendship and great exercise for everyone!

The Hawksbill Greenway is part of the Daughter of the Stars Loop in the Virginia Department of Game & Inland Fisheries Birding & Wildlife Trail. The Greenway combines a lush habitat for birds, butterflies, trout and other wildlife with urban amenities, including:

- A two mile, 10-foot-wide, paved walking and biking trail that is ADA-Compliant / handicapped accessible
- Six convenient parking areas
- Two modern restrooms
- Four drinking fountains
- Trailside benches
- Picnic tables

While on the trail, residents and tourists are only steps away from Luray's downtown area – with its historic homes, restaurants, Farmers' Market, shops, government buildings, library, galleries, and restored train depot – or its quaint residential neighborhoods.

The trail provides a safe setting for walkers and bikers who use the trail for many health benefits. It has become a gathering place in the community for a variety of activities.

Schools bring their students on field trips to the Greenway to learn about a variety of science and environmental subjects. And, the students have fun as well.

The Hawksbill Greenway Foundation was set up to help enhance and maintain Luray's award-winning Greenway as well as other park land. We hope you will want to help support our preservation efforts on behalf of the entire park system.

Spend quality family time together.
