

## **TOWN OF LURAY PARKS & RECREATION DEPARTMENT INFORMATION**

The Town of Luray Parks and Recreation Department is responsible for the operation and management of seven parks, consisting of approximately 300 acres of parkland located in and around Luray, Virginia.

The first and largest park is *Lake Arrowhead Park*, built in the early 1970's and located approximately two miles outside of the Town of Luray limits. *Lake Arrowhead* offers a 34-acre lake with fishing, boating, canoe and paddleboat rentals, a white sand beach for swimming, and a concession stand. There are six picnic shelters with restroom facilities, a baseball field, playground areas, and two miles of marked hiking trails. Total acreage of the park is 134.

The second park is the *Ralph H. Dean Recreation Park*. This park is approximately 58 acres and was built in the early 1990's, partially with funding from the Department of Conservation and Recreation and the Virginia Department of Transportation. The *Ralph H. Dean Recreation Park* is a dynamic recreational facility kept in impeccable condition with scenic mountain views. In 2009-2010 the Town of Luray expanded park facilities to include two National Softball Association regulation softball fields. The principal softball field complex has stadium style seating (capacity 600) and state of the art press box and concession facilities. Also located at the *Ralph H. Dean Recreation Park* are three Little League baseball fields, a Robert Leathers designed wooden playground the Imagination Station, a nine hole Frisbee golf course, a smaller restroom facility, a 1-1/4 mile Fit-Trail walking trail, and two picnic shelters that are available for daily rental.

The third and fourth parks we are responsible for maintaining are small neighborhood parks. The first being *Luray Inn Lawn Park*, located across from the Page Public Library which consists of a community gazebo, picnic areas, and playground equipment. The second community park is *Eugene Park*, located on Rosser Drive. This park consists of picnic areas and playground equipment. These two parks have a total acreage of 11.

The fifth and sixth parks we are responsible for are the unique "pocket" parks. The "*Slye Pocket Park*" is located on East Main Street and is a small park with landscaping, picnic tables and benches. The "*Cave Pond Park*" is located on West Main Street and includes a one acre pond with a lighted fountain, a handicapped fishing dock, covered picnic tables and benches. The total acreage of both parks is 20.

Last, but certainly not least, is our beautiful award-winning *Luray-Hawksbill Greenway* located along the Hawksbill Creek in downtown Luray. This linear park features a 10' wide paved walking pathway with benches and picnic tables which parallel the Trout-stocked Hawksbill Creek. Phase #1 of this 4-phase trail, which is ½ mile in length, was completed in the Spring of 2002. This phase runs from the Commuter Park-and-Ride (at the intersection of Route 211 Bypass and Route 340 North) to Main Street. Phase #2, completed in 2003, crosses Main Street, runs for about ½ mile, and stops at the Route 340 (Farm Bureau) Bridge. This phase includes a beautiful plaza area with swings, an arbor, and also another small cliffside pocket park with considerable landscaping, a drinking fountain, picnic tables and benches. In 2004 a ramp was installed under Main Street to ensure that trail users would have a safe passageway. Phase #3, completed in 2005, runs from the Park-and-Ride area under Route 211 Bypass and makes a large loop. This phase is approximately ¾ of a mile in length; this phase also traverses our Riparian area. Phase #4, completed in 2009, runs along Route 340 South for approximately ¼ mile from the Farm Bureau Bridge to Oscar Sour's Bridge. In 2010, with funding from the Virginia Department of Forestry, a permeable paver parking lot was constructed on Phase #4. Also in 2010, with funding from the Department of Conservation and Recreation, two trailside comfort stations were completed to provide our trail users with a clean, safe comfort area that is aesthetically pleasing. The completed trail is approximately 2 miles in total distance.

We here at the Town of Luray are very proud of our park system and strive to keep each park beautiful, clean, and safe for all to enjoy.
